

BaseCap™

CAB-HIGH, ALUMINUM TRUCK CAP WITH AN INTEGRATED BED AND INTERIOR LIVING SPACE

- 1/8" aluminum exoskeleton structure
- High precision CNC laser cut, press broke panels
- Stainless steel fasteners (rivets, nuts, and bolts)
- Self-deploying tent supported by stainless steel bows and fittings
- Interior Molle panels
- User-defined 12V USB charging port with built-in voltmeter
- 4-Corner body-mounted hold-down ratchet straps
- Stainless steel hinges on exterior and interior
- Exterior baggage door for access to front of the truck bed
- Proprietary rear hatch latch, able to be opened from inside or outside
- Cab-high and garageable design to allow for parking inside a low-height garage
- Gear isolating mesh - keeps tent and soft goods from touching gear stored in truck bed
- 6' sleeping surface with a space-saving inflatable mattress that provides adjustable firmness
- Easily removable
- Fire Extinguisher / Smoke Detector

THE PERFECT TRUCK CAP THAT TURNS YOUR TRUCK INTO A CAMPER

The BaseCap™ is the only cab-high canopy camper on the worldwide market. While it looks like and has all the storage capability of a traditional truck cap, the BaseCap™ roof opens 180 degrees into a canopy camper with 6' of sleeping space.

Designed with the same high-quality and durable 1/8" aluminum shell as our other Skinny Guy truck camper models, the floor and cabinets have been removed, which allows the customer to have floor to ceiling storage space. We have added MOLLE panels inside to enable customers to build out their kit and bring along all the gear they need for their best adventures yet.

Integrated Sleep System

Self-deploying tent and sleeping surface turn your truck into a camper

Floor to Ceiling Storage

BaseCap™ is built so you have access to the whole of your truck bed. You won't lose any capacity you'll actually gain some, with the shell design.

Cab High & Garageable Design

Unique cab-high design allows the BaseCap™ to go wherever your truck can take you.

Exterior Baggage Door

User-Defined Space

The open design of the BaseCap™ allows users to customize the interior space to best suit their needs.

Tailgate Swing*

*Added truck accessory, not included with Basecap

BaseCap™

Intuitively designed, the BaseCap can be set up in 5 to 10 minutes. Unlike all other canopy campers which only offer entry through the tailgate, all Skinny Guy Campers, including BaseCap™, give you side and staircase entry. The proprietary anti-trap latching system on the rear hatch allows the user to open the hatch from the inside or outside, so you won't get trapped inside, out on the trail. To ensure your gear is secure when you do head out for a hike, the BaseCap™ features a lockable bed lid and lockable side and rear hatches.
